MONACO, Sept. 26, 2018 /PRNewswire/ -- Synopsys, Inc. (Nasdaq: SNPS) today announced it will host a workshop with customer RB addressing software security and quality for Internet of Things (IoT) applications at the Les Assises conference in Monaco on Oct. 11, 2018. Les Assises, which runs Oct. 10–13, brings together leading experts and organizations from both the public and private sectors to discuss pressing issues facing the information systems security (ISS) industry.

Synopsys Conference Session (Room: Pagnol)

Workshop details:

- Opening remarks, Cem Nisanoglu, managing consultant at Synopsys
- Topic: Back to the Future of the Internet of Things, Noel Dunne, security director at RB

In his presentation, Noel Dunne will discuss software security and quality best practices for Internet of Things (IoT) applications. Dunne is responsible for tooling up all Software Security Initiatives (SSI) focusing on automation, scaling security activities, and debunking security myths. Previously, Noel has led projects that have found hundreds of undiscovered zero-day security defects in enterprise, mission-critical applications.

When: Thursday, Oct. 11

Time: 3–3:45 p.m. GMT+2
