MEDIA ALERT: Synopsys Software Integrity Group to Host First User Conference Empowering India's Enterprise Application Security Community

Disclaimer: The Synopsys Software Integrity Group is now Black Duck®. Click here to learn more.

BANGALORE, India, July 17, 2023 – Synopsys, Inc. (Nasdaq: SNPS), a recognized leader in application security, is hosting the first Synopsys Software Integrity Group User Event on July 20, 2023. The event will bring together application security leaders to learn, network, and share expertise and insights.

While attendance is limited, media passes are available for thought leadership sessions presented by security and development leaders examining proactive risk management strategies, next generation application security solutions, and more.

"India presents incredible growth potential in what has already proven to be a powerhouse for software development innovation," said Richard Kirk, VP of International Sales for the Synopsys Software Integrity Group, and keynote speaker at the conference. "This event stands at the cutting edge of this progress by bringing leaders in software development and software security together in a meeting of the minds. We will journey through multiple sessions examining how software security can complement and progress software development so that organizations can gain competitive advantages through real industry-leading secure development expertise."

"Software development innovation and velocity are growing at astounding rates throughout India and the world," said Naresh Choudhary, VP at Infosys, who will be presenting at the conference. "It's imperative that we embrace this growth in a manner that underpins security and privacy by design. I look forward to my address on ***Powering DevSecOps for an AI First Live Enterprise*** at this event that will bring together individuals from various domains of expertise to drive collaboration and bolster the trajectory of software security innovation."

On July 20, 2023, cybersecurity experts from around the globe will host a series of application security presentations at the Vivanta Bengaluru, Whitfield (next to ITPL) from 9:00am to 5:00pm IST.
